DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

1. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 18, drawn to oligonucleotide molecules for the detection of *Giardia lamblia*.

Group II, claim(s) 10-17, drawn to methods of detecting the presence of viable cells of *G. lamblia*.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons.

According to PCT Rule 13.2, unity of invention exists only when there is a shared same or corresponding special technical feature is a contribution over the prior art. The inventions listed in Group I do not relate to a single general inventive concept because the lack of the same or corresponding special technical feature. The technical feature of Group I is "an oligonucleotide molecule for the detection of *G. lamblia* which hybridizes to 18S rDNA/rRNA sequences" which is shown by Shah et al. (US Pat. 5,558,989); Weiss et al. (Mol. And Biochem. Parasitology, Vol. 54, pages 73-786, 1992) ; Rochelle et al. (Applied and Environ. Microbiol. Vol. 63, No. 1, pages 106-114, Jan 1997). Each of Shah, Weiss, Rochelle teaches oligonucleotide molecules which

Art Unit: 1634

hybridize to 18S rDNA/rRNA sequences of *G. lamblia*, thus, Group I lacks novelty and/or inventive step and does not make it a contribution over the prior art.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
